**R**(

The origination of every Roswell product is a moment on the water that we believed could be made even better.

Each new design is driven by the same passion people around the world chase to lakes, rivers, and oceans to create experiences that define them.

Those experiences have inspired over 25 years of innovation, forming our DNA out of a vision that has seen humble beginnings become something so much more than the products we build.

Roswell is a movement that marches forward without compromise to make every second on the water unforgettable.

ROSUL

Located in Rockledge, FL, Roswell's world-headquarters is home to the heart of concept-to-completion product development and production with a modular, forward-thinking design focused on growth. Rapid prototyping and high-capacity product fulfillment provides the world's elite boat builders with confidence in the ability to maintain their march on the edge of innovation.

#### **Roswell Marine OEM Partners**

 The modular design of Roswell's manufacturing floor is configured for growth utilizing the precision and efficiency of Mazak CNC Machines featuring their revolutionary Smooth Technology.

## WHERE IMAGINATION MEETS SOUND

Revolutionizing the industry with a signature sound engineered for perfection on the water, you will find the **Roswell R1 Audio line** celebrated by enthusiasts and the world's top boat manufacturers in applications where unmatched clarity, power, durability, and style is demanded. Evolving beyond sound alone to define a culture of acoustic perfection, it has become a catalyst for new experiences.

The relentless pursuit of a combined passion for music and being on the water, the Roswell R1 Audio line is developed without boundaries, to create a category all its own and take you to a place where imagination meets sound.

## R1 Pro Tower Speakers

Discover a new age of audio with the revolutionary, patented **Roswell R1 Pro Tower Speakers**. Featuring the world's first RGB LED light-permeable speaker housing, this award-winning innovation consumes your senses with unmatched acoustic clarity in a place where imagination meets sound. The R1 Pro is a mission accomplished in developing the flagship of the R1 Audio line to introduce an entirely new listening experience on the water.

#### Roswell Marine Digital Media Wired Remote (920-21004

- IP66 rated for excellent water resistance
- Backlit LED Display
- Allows source switching and zone control
- Single Wire Hookup for easy installation
- Ideal for mounting near swim platform or any secondary location where stereo control is desired

#### CYBOX C920-20130

- IP67 rated for excellent resistance to water and harsh outdoor environments
- Bluetooth 4.1
- AptX HD Streaming
- High resolution sound quality
- Devices memory with auto-connect feature
- Built-in line driver for 2.2V RCA Output
- High voltage to reduce potential noise in the system
- Compact size for convenient mounting

#### Dual Zone Volume Control (920-0300

- Independent volume control for 2 zones
- Simple installation
- Dual logarithmic pots for intuitive response
- Connects with 6 nickel-plated female RCA connectors
- Quad-shielded cable for the ultimate in noise rejection

### Compartment Vent C920-20211

- Made from marine grade materials
- Simple installation

#### RGB Remote and Controller (920-1620

- RF Control (requires 2 AAA batteries)
- 15 music-responsive LED modes
- Conformally coated PCB's for marine durability
- Powers up to 430 watts of RGB LED's
- 20 standard LED modes

# TRITON II

#### C910-21005

The next evolution of the world's most celebrated board rack delivers a progressive step forward with the **Roswell Triton II**. Featuring Roswell's R-FLEX suspension technology, innovative features at every angle deliver the most advanced board storage solution on the water. The R-Flex Talon catchhead conforms to any board edge shape with an autonomous grip to perfectly engage varying surface angles and contours in a way that naturally reacts as pressure is applied for a secure hold.

#### SPECIFICATIONS

Max Board Thickness: Min Board Width: Max Board Width: Mounting Hardware: Materials: 2.5 in | 6.35 cm 14.0 in | 35.56 cm 23.0 in | 58.42 cm 316 Stainless Steel 6061 aluminum | Hard d<u>uro TPE</u>

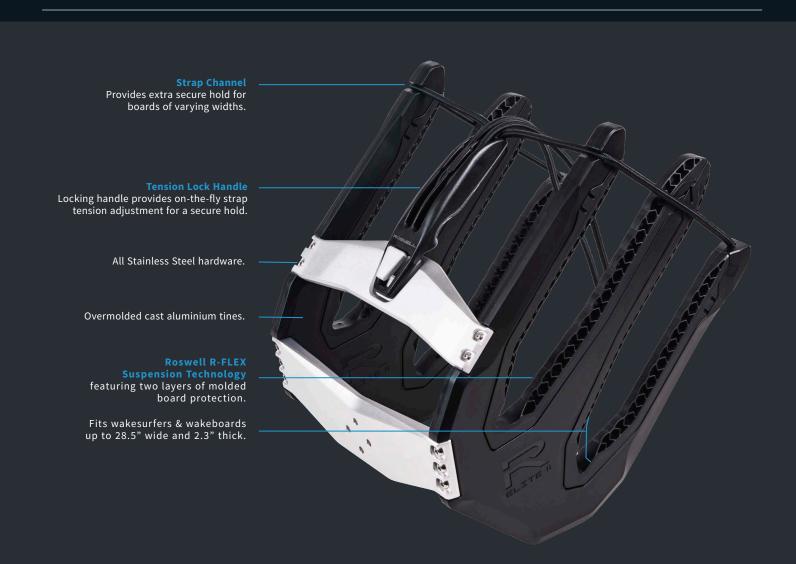

#### **R-FLEX Suspension Technology**

Roswell R-Flex Suspension Technology has been integrated into the Elite II delivering an innovative approach to molded board protection that keeps your weapon of choice on cloud 9. Two layers of dampening and deformation contour to any board to hold it snug and suspended from impact.
